Seta-LETTER®

Seta – LETTER® is the new one side matt cast acrylic sheet created by Madreperla to ease the production of advertising logos and letters.

Seta – LETTER®'s range is based on 11 dense colours, produced with the most advanced UV stabilizing technology in order to stand to sun exposure and weathering, and guarantee the product's long life. All colours are produced in full respect of the RoHS and REACH regulations.

The letters and logos can easily be milled or laser cutted, to offer a wide variety of clients the possibility to realize creative projects with a very strong characterization.

The advantages of Seta – LETTER® are:

- A wide range of standard colours
- One satin or one glossy surface
- Allows to easily chose the desired font and the letter's size.
- the possibility to realize logos and letters with a very competitive production cost.

It is really simple to create strong image personalization, trendy installations, exploiting the typical acrylic positive features:

- easy and cost effective transformation
- high resistance to UV rays
- long lasting colour and brightness resistance
- colour brilliance

Seta – LETTER® is produced standard in 8mm thickness, to maximise the product's features in 3D. Black and white are standard also in 18mm.

We can offer an additional service to colour – match any corporate identity colour, in any desired thickness from 8mm to 20 mm, with a minimum order quantity of 15 sheets (around 90smq).

Seta - LETTER® standard colours are:

Standard in the below mentioned thickness		2030 x 3050 thickness mm	2000 x 3000 thickness mm	COLOUR RAL

SUSTAINABILITY

Seta – LETTER® is 100% recyclable at the end of its life, with no need of any special treatment. It is enough to disassemble the letters from the rest of the installation, and deliver them to specialized companies active in recyclables collection. Upon request Madreperla can supply names and addresses of such companies.

Seta – LETTER® is the answer to eco – friendly communication
